## EYEWEAR

### NEW 2009 SUNGLASS COLLECTION

This season Victorio & Lucchino present an innovative and carefully studied line of glasses inspired in the mythical elegance of the 60s.

For women, we find sophisticated combinations and very original accents. Large, wrap-around rims, whether square or rounded, still predominate.

A wide variety of materials are used, including both acetate and metal as well as playful combinations of these in rims and sidebars. Lenses in different colours or translucent tones add a touch of sophistication to women's models. Also worth noting are the accents found on the sidebars, ranging from Swarovski rhinestones to laser-etched leather or quilted designs.

For men, the designers propose an elegant and sober collection with very masculine shapes and in which the executive and aviator styles stand out, the latter having clearly dominated the last few seasons in both metal and acetate. Metallic accents on the sidebars and bridges renew the Victorio & Lucchino collection for men.

Colours include classic black, brown and tortoiseshell though this season streaked tones and water-effects are added, creating warm textures.

Without doubt, this collection aims to heighten our charm and beauty thanks to the exclusive designs of these two natives of Seville.

The collection is manufactured and distributed by Optim and can be found in Victorio & Lucchino shops and the best optician's in Spain.

**VL16172**

This oversized model for women is made in acetate. Its elegant, quilted-effect sidebars with Swarovski rhinestone accents stand out. Available in black, black-white, caramel and crimson.

**VL16168**

This feminine model combines metallic rims and acetate sidebars. Its rounded oversized rims and the diamond shapes on the sidebars stand out. Available in various colours.

**VB17150**

This model for men is made in acetate and includes a top metal bar on the rims forming a double bridge. Available in black, tortoiseshell and streaked brown.

**VL16165**

This men's model made in acetate is executive in style. The embedded metallic piece in the rim and the laser-etched logo on the sidebar stand out. Available in black and tortoiseshell.
